### G-Cling Clear / G-Cling White

#### Film thickness

G-Cling Clear PET 180: 200mic (+/- 5)

G-Cling White PP 230: 230mic (+/- 5)

#### Liner

G-Cling Clear PET 180: 50mic matt clear filmic

G-Cling White PP 230: 50mic matt white filmic

#### Peel strength

Circa 10g / 22mm

#### Available width

1370mm

#### Available length

50m

#### Printability

Unlike cheaper clings, which are only suitable for UV and Latex printing, G-Cling products deliver superior printing results via a large range of wide format printing technology such as Latex, UV, Solvent and Eco-solvent. For the finest results use OEM inks.

## Better results - every time!

- ✓ Easy to apply – no special expertise required.
- ✓ A cost-effective choice – removable and reusable many times.
- ✓ 'Vacuum suction' technology (think octopus suckers!) means no glue = no sticky residue.
- ✓ If product is contaminated, it can easily be rejuvenated using sticky tape to clean and revive static properties.
- ✓ Easy to achieve, 'bubble free' smooth finish.
- ✓ PVC-free product.

**Before use:** To get the best results from your laminate, ensure the receiving surface is clean, dry and defect-free.

**How to store:** To prolong the product's usable life, avoid excessive exposure to UV radiation, store unused wall G-Cling in a dry place and do not expose to extreme temperatures (temp. 23° +/- 2° C, R.H. < 55%).

**Shelf life:** 2 years (in advised storage conditions).

**Minimum expected 'in use' life:** 1 year (indoors, in advised storage conditions).

Apply film by carefully removing liner while smoothing out bubbles as you apply to substrate surface. Ask us for detailed application advice.
